Plan of the Day

Transit to 8N/International

Date Line

Work on Cruise Report

I woke up very sleepy. I think I am winding down myself. My batteries are slowly running out. I started writing my End of Cruise report for the Field Operations Officer and cleaned up the stateroom.

At the day's end was tournament games all around. I played sequence and darts, and lost both. Chris, one of the deck hands taught me a short splice and an eye splice.

I assisted the ET guys with updating my Intranet webpage, and I watched a movie with the Chief Scientist, Patrick. All in all, a pretty uneventful day.

Crewmembers enjoy some tournament games while the ship is in transit.
